

GOVERNMENT PROCUREMENT SOLUTIONS

Providing equipment and services to government agencies since 1976.

CME is proud to provide expertise and services to VA, Military, and other government facilities that support our troops and veterans across our great country. We have more than 45 years of government sales experience. We hold several key government contracts including DoD ECAT, DoD DAPA, GSA, and VA FSS, which are accessible to DoD, VA, Indian Health, and other federal, and SLED (state, local & education) facilities for simplified acquisition. With the implementation of the "Rule of 2" for a VA transaction, CME partners with select SDVOSB companies to provide quoting options for your purchases above the micro-purchase threshold and Open Market items. We can also assist you directly with any of your credit card purchases.
